PROJECT

With the new building ensemble DAS RHEINGAU in Berlin-Friedenau, a residential project is being created that harmoniously combines classic architecture and contemporary living comfort. At Rheingaustraße 29-30, BAUWERT AG, together with BONANNI Architekten, is realizing a new building ensemble that preserves values and shapes the future. DAS RHEINGAU comprises 69 condominiums with 2 to 5 rooms. Generous ceiling heights, premium materials, and finely coordinated details characterize the appearance. A striking natural stone base, white wooden windows, and textured plaster surfaces lend the facade a classic elegance. Balconies, loggias, terraces, and private gardens create light-filled living spaces with individual character.

The interior reflects the attention to detail: oak parquet flooring, underfloor heating, porcelain stoneware from Fiandre, Mirage, and Rako, and elegant fixtures from renowned manufacturers stand for quality and durability. Sustainable energy through solar modules, green roofs, and e-mobility solutions round out the concept. DAS RHEINGAU is an ensemble for people who value architectural clarity, comfort, and durability – a piece of stylish Berlin, designed to last for generations.

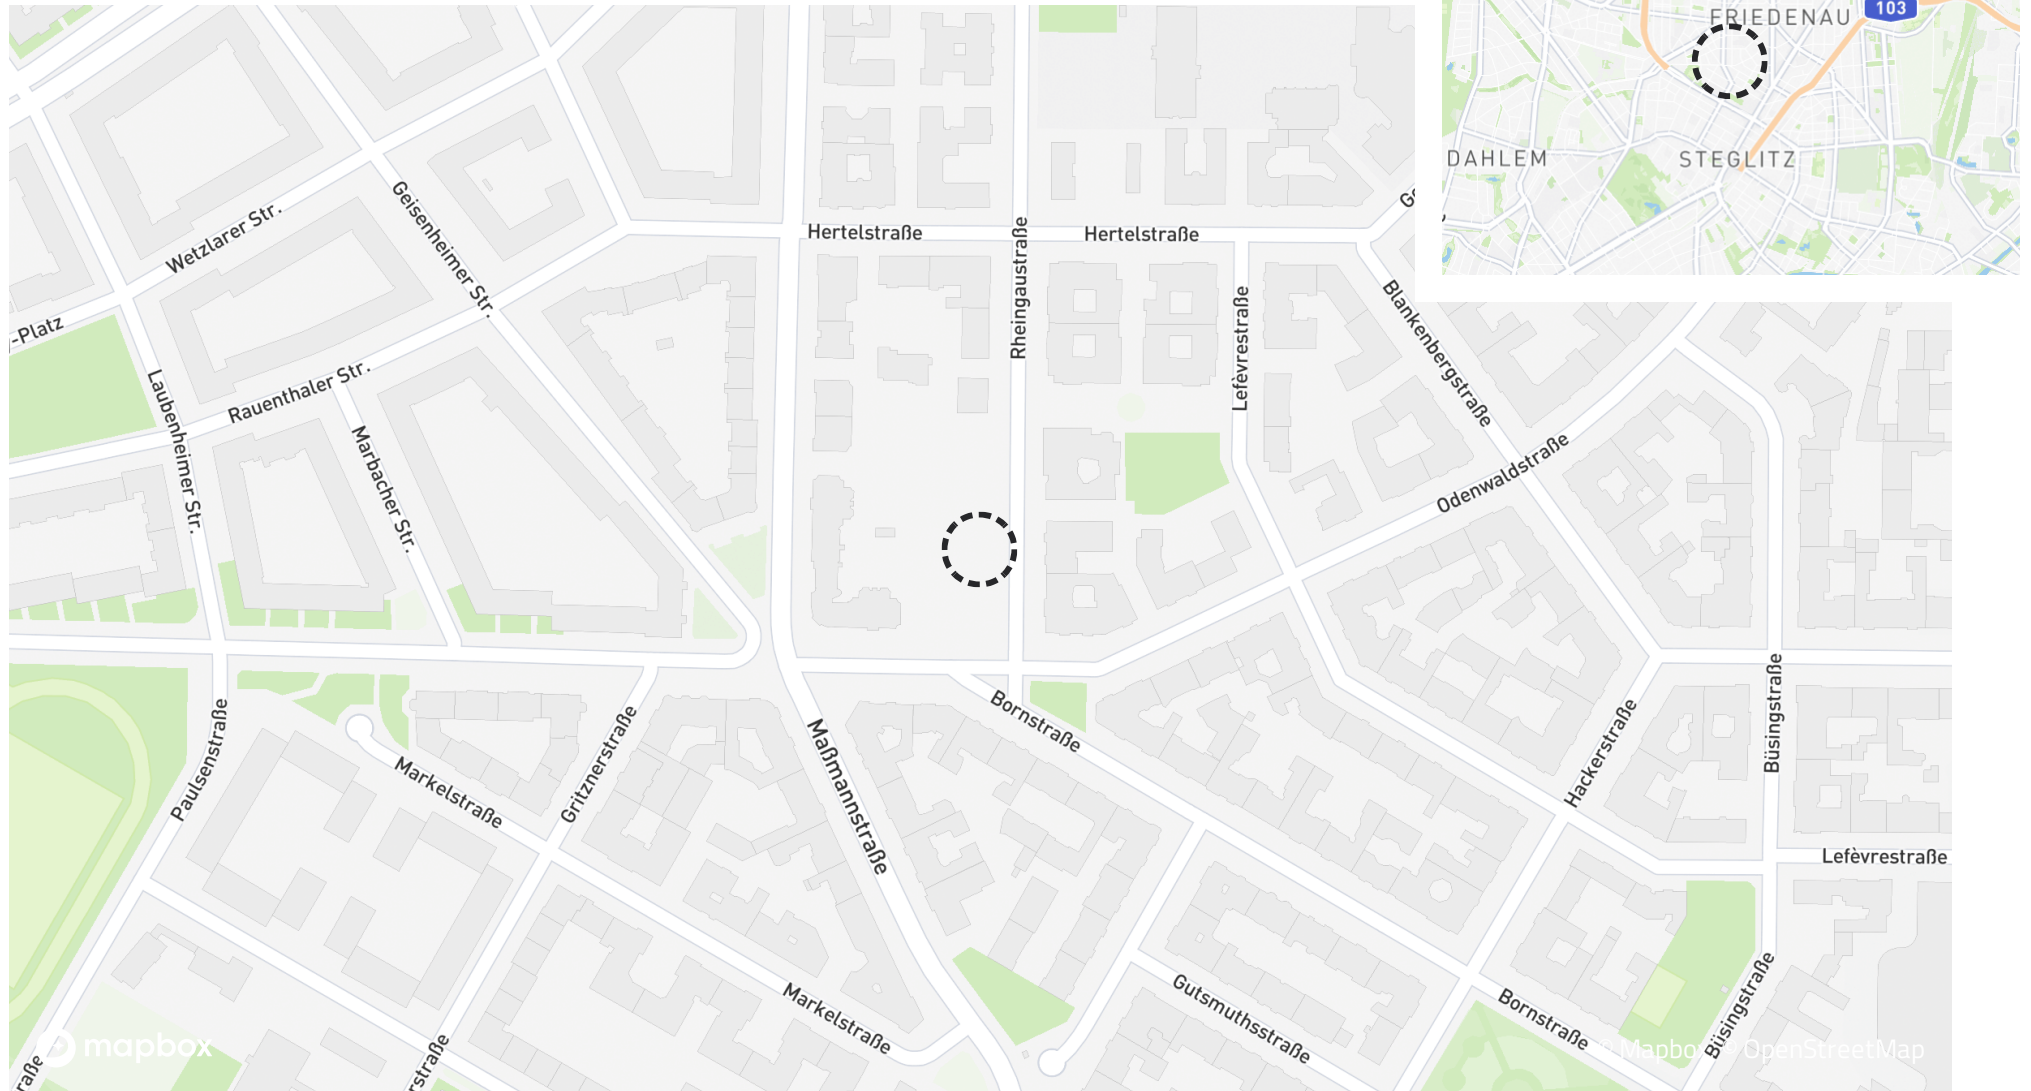

LOCATION

Berlin-Friedenau is considered one of Berlin's most charming residential areas – quiet, green, and characterized by cultural vibrancy. Narrow, tree-lined streets, front gardens, and historic buildings give the neighborhood its distinctive atmosphere. Neighborhood spirit, quality of life, and urban elegance combine here.

Around DAS RHEINGAU, cafés, delicatessens, and weekly markets invite you to explore, while Schlossstraße offers a variety of shopping opportunities. Artistic venues and traditional restaurants characterize the neighborhood's flair. Thanks to the S-Bahn and U-Bahn, buses, and the city highway, the City West can be reached in just a few minutes. A home at DAS RHEINGAU means living in the heart of Berlin – and at the same time feeling at home in a small, idyllic world.

NOTES

Shown illustrations and visualizations (interior and exterior views) may deviate from actually planned or executed structural work (walls, windows, doors, floor and wall coverings, facades, colors, roofs, balconies and terraces, plants, etc.), and do not constitute any guarantee of properties in their representation. The floor plans shown are schematic floor plans from which no exact dimensions can be derived. Graphical representations may deviate from the actual condition (wall thicknesses, door details, arrangement of sanitary objects, etc.). The furniture shown is only included in the purchase price if it is described as part of the purchase contract.
